PATHOGENESIS OF LIVER DISEASE

Prof. Geoff W McCaughan
Medicine, Central Clinical School, University of Sydney

Head of Liver Injury and Cancer Program, Centenary Institute of Cancer Medicine and Cell Biology

Professor Geoff W McCaughan is in the fields of Liver pathobiology and Clinical Liver transplantation and Hepatology. He is a member of the Faculty at the Centenary Institute and is head of the Hepatitis and Liver Cancer Program. He also heads a clinical research program as Director of the AW Morrow Gastroenterology and Liver Centre and Director of the Australian National Liver Transplant unit at Royal Prince Alfred Hospital and the University of Sydney. His research interests have been in:

1. Molecular pathogenesis of liver disease and hepatocellular carcinoma.
5. Clinical outcomes in HCV related and other liver diseases including hepatocellular carcinoma.

His presentation will concentrate on understanding of the liver progenitor response and new understanding of hepatocellular carcinoma including the role of microRNA-181a.

Date: Wednesday 4th April 2018

Time: 1 - 2 PM

Location: Auditorium, Research & Education Centre, St George Hospital

Ground Floor, 4 – 10 South St, Kogarah

Light refreshments will be provided
